Council of Europe Asks Guarantee of Security

PARIS, Saturday. — Foreign Minister Robert Schuman told the U.N. yesterday to keep its hands off the French-Tunisian dispute.

He also emphasized that France had no intention of surrendering its economic ties with the Arab as the price of an accord with Germany.

The following resolutions were passed by an overwhelming majority.

The decree of Tunisian control guarantees the security of all participating nations "while, in order to maintain strict vigilance, there are no military rights for the defense of that territory."

While the aim should be to preserve economic stability, there should be a guarantee of the freedom of economic cooperation among the countries and social control of production.

J. J. Fins (Netherlands, Popular Catholic) said that the threat of war was still present and disrupting factors in the economy of war could not be overruled.

"Council Accepts Plan"

"But what these countries can accept is that the plan of operation should be drawn up in such a way that the French are to be left in the economy of the country."

Following "apparently inspired" newspaper reports of alleged military intentions, Mr. Fins moved a resolution to the effect that the members of the committee should be informed of the activities of the secretaries-general in the North Atlantic.

Mr. Fins cited reports of "a strategic plan allegedly advanced by several great Atlantic nations" of aggression, of most of the Northern Netherlands and of Northwest Germany, to the ag-

reement.

"War Threat Reduced, Gen. Bradley Says"

WASHINGTON, Saturday (UPI). — General Omar Bradley, Chairman of the Joint Chiefs of Staff, said today that the threat of war in 1954, which he considers the greatest danger, is less now than a year ago, but that the Allies are not relax their defense efforts.

Back from a 35-day round of conferences and inspections in Europe, he told President Truman and Defense Secretary Robert Lovett that the West has increased its security forces and that the U.S. has made more progress than Russia in developing atomic weapons in the last year.

General Bradley said, however, that some European nations are racing on atomic projects as an excuse for not building up their forces.

Acheson Hits Pravda Attack on Kennan

WASHINGTON, Saturday (UPI). — Secretary of State Dean Acheson yesterday described as "wholly unjustified and improper" the criticisms of Mr. George Kennan, U.S. Ambassador to Moscow, which were made yesterday in a "Pravda" editorial.

The article described Kennan as "a slanderer in the disguise of a diplomat" because he had compared his stay in Moscow, at a press conference, to the period in Berlin by the Nazis. It accused him of having broken "elementary rules of diplomacy" to respect the countries in which they stay."

Mr. Acheson said at his weekly press conference that Kennan's remarks to the reporters seemed to him to be a very calm statement on what life was like for allied diplomats in Moscow.

Ike Ends Triumphant 'March'

By JEROME ZEL LURIE

NEW YORK, Saturday. — General Dwight Eisenhower returned to New York today on a tour of triumph after a 15-day tour. He invaded enemy territory yesterday sweeping across the southern states of Virginia and North Carolina "kicking Richmond" once again to the shanks of an immense and enthusiastic audience.

Standing on the portico of the Virginia Capitol, which Thomas Jefferson designed, he added Virginia Democratic Senator Byrd to his growing gallery of indispensable legislators which already includes the "great" Senator Taft, "distinguished" Senator Bricker, and "eloquent" Senator Kerr and to which Senator McCarthy might be made-headed in politics, so what?

He is certainly not a man, which is more than can be said about some present day politicians. He is one of the very few men, perhaps the only one, liked by the common people everywhere in the world; he has no enemies apart perhaps from Senators McCarthy, Kerr and Clark — though they have no friends. "Militant Arms" and "City Lights" and innumerable other Chaplin films will be remembered when the names of some Senators and Attorney Generals will have been wrapped in默默无闻。

Handsoff Tunis, France Tells UN

PARIS, Saturday. — Foreign Minister Robert Schuman told the U.N. yesterday to keep its hands off the French-Tunisian dispute.

He also emphasized that France had no intention of surrendering its economic ties with the Arab as the price of an accord with Germany.

The decree of Tunisian control guarantees the security of all participating nations "while, in order to maintain strict vigilance, there are no military rights for the defense of that territory."

While the aim should be to preserve economic stability, there should be a guarantee of the freedom of economic cooperation among the countries and social control of production.

J. J. Fins (Netherlands, Popular Catholic) said that the threat of war was still present and disrupting factors in the economy of war could not be overruled.

"Council Accepts Plan"

"But what these countries can accept is that the plan of operation should be drawn up in such a way that the French are to be left in the economy of the country."

Following "apparently inspired" newspaper reports of alleged military intentions, Mr. Fins moved a resolution to the effect that the members of the committee should be informed of the activities of the secretaries-general in the North Atlantic.

Mr. Fins cited reports of "a strategic plan allegedly advanced by several great Atlantic nations" of aggression, of most of the Northern Netherlands and of Northwest Germany, to the ag-

reement.

New Imports Plan Cuts Meat Ration

TEL AVIV, Saturday. — The four-hour talk yesterday between Prime Minister Ben Gurion and the leader of the General Zionists, Mr. Perez Horowitz, did not reach the issue over which the negotiations for a Mapai-General Zionists coalition broke down a year ago.

Under the programme, about 1,200,000 would be spent for meat during the year. This would be sufficient to supply each person with 1,200 grams of meat during one year, or an average of 100 grams a month.

It is understood that reducing meat imports is one point of the Gaza programme which is strongly opposed by the Minister of Commerce and Industry — due to his psychological effect.

Nutrition experts stated that the Gaza programme would not increase the number of malnourished people. They claimed the programme would reduce wheat imports which are to be offset by an expected increase in local output. They admit, however, that the 25m. originally requested by Mr. Joseph was more than enough to maintain the present nutritional level.

The 25m. minimum, however, would create a "strained" situation, particularly with the price rise again or local crops fail.

Pravda Attacks on Kennan

TEL AVIV, Saturday. — The conservative daily *Pravda* in Moscow, which is a right-wing newspaper, has attacked the May Day rally, however, and in general below the line.

The conservative daily *Pravda* and *Avrora* are to be offset by an expected increase in local output. They admit, however, that the 25m. originally requested by Mr. Joseph was more than enough to maintain the present nutritional level.

General Bradley said, however, that some European nations are racing on atomic projects as an excuse for not building up their forces.

Acheson Hits Pravda Attack on Kennan
